

# **Outlooks on IPv6 Deployment**

**2002.12.20**

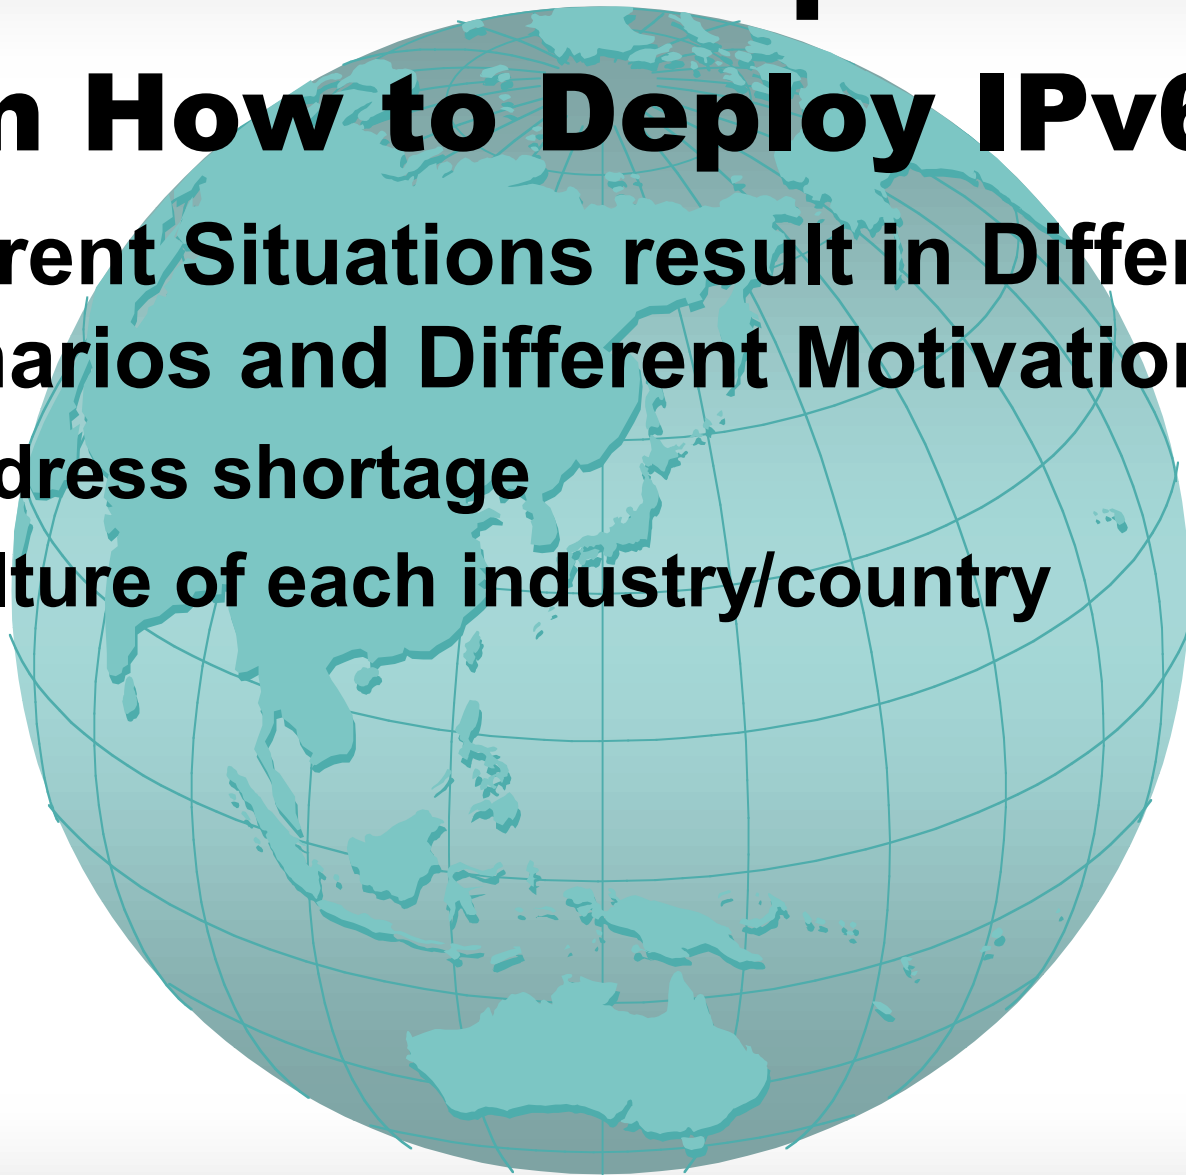

**Takashi Arano**

**CTO, Intec Netcore. Inc.**

**Board member, JPNIC**

# **Various Viewpoints in How to Deploy IPv6**

- **Different Situations result in Different Scenarios and Different Motivations**
  - **Address shortage**
  - **Culture of each industry/country**

# Discussion Points

- **Exchange different views from various fields and various geographic regions.**
  - **What is the current deployment status in each field?**
  - **What deployment scenarios do you foresee?**
    - **With specific years if possible?**
  - **Where is the breakthrough point? What and who will drive this?**
  - **How do you consider cost/revenue factors as real business issues?**

# Panelists

- **Enterprise Network: Akihiro Inomata, Fujitsu**
- **Mobile Network: Fumio Watanabe, KDDI**
- **Deployment in China: Hua Ning, BII**
- **Deployment in US: Gary Kunis, Cisco**
- **Deployment in Europe: Jordi Palet, Consulintel**
  
- ***Cf. Home Network will not be here but will be discussed in the afternoon panel***
